

SUPPORT THE ARTS AT SJO!

Exciting things are happening at SJO in the fine arts. We are having our theatre renovated with a planned opening in the Spring of 2023 which will properly showcase our drama and music programs. Our marching band and flag corps have experienced year over year improvement in competitions. The Art Department has recently redesigned their curriculum to allow a better path for students pursuing art in the classroom. With all of this going on, the Fine Arts Booster Club is raising money to further assist the Arts at SJO! With your help, we can increase not only the resources for our students, but increase the number of students and their involvement in the fine arts.

We are launching a six page brochure to inform incoming freshmen and current students about the opportunities to get involved. We plan to distribute the brochures at the middle school and at an information table set up at many of the performances throughout the year. Our goal is more students and bigger audiences for our fine arts performances.
